COVID results appear as above (when accessing the desktop version of the portal)

The “Result” column shows your test result.

“Detected” means your COVID test result was positive.

“Not detected” means your COVID test result was negative.

For additional information about quarantine and isolation, visit the CDC’s website:

<https://www.cdc.gov/coronavirus/2019-ncov/your-health/quarantine-isolation.html>

COVID results appear in the portal immediately after the results are available.

In the MHealth App:

The “Result” line shows your test result.

“Detected (Abnormal)” means your COVID test result was positive.

“Not detected” means your COVID test result was negative.

If you need a laboratory report for verification purposes (school, work, day care, etc.) you must email your request to bhclabcustomerservice@boone.health. Please include your Name, DOB and day of test.

For additional information about quarantine and isolation, visit the CDC’s website:
