

Comfort Palliative Care

The Comfort/Palliative Care team supports patients at the end of life. The Comfort/Palliative Care Team strives to help patients experience comfort, compassion and dignity by providing pain management, addressing breathing difficulties, and offering daily personal care. The Comfort/Palliative Care team plays a crucial role in the physical, emotional, and spiritual support of these patients and their family, while serving as the patient and family's medical liaison. This vital support creates a peaceful environment that provides the patient and their loved ones with a sense of comfort and closure.
